Axmachine Blockchain Services Pvt Ltd.

Axmachine is a UK and South Africa-based company that offers crypto mining server rigs to blockchain projects.

We are most preferred because of our Multi-node deployment, high-speed communication network, code innovation, safe & security

As mining service operators, we are

Leading In Mining Technology

Open source code, free management software of miners and mining farms, official customized overclock firmware increase revenue significantly, blockchain data and technical service provider.

Hashing Convenient

Miners grouping and watcher link of sharing data. Our Rigs can hash from 1000 MHS (million hash/second) to 5000 MHs.

Revenue Assurance

Real and transparent mining data, advanced FPPS revenue model, powerful settlement center, punctual payment, rain or shine.

Our Popular Mining Nodes

Vertcoin

Dash coin

Ax Miner - A-46:2

Newly Designed v1.023

Coming Soon

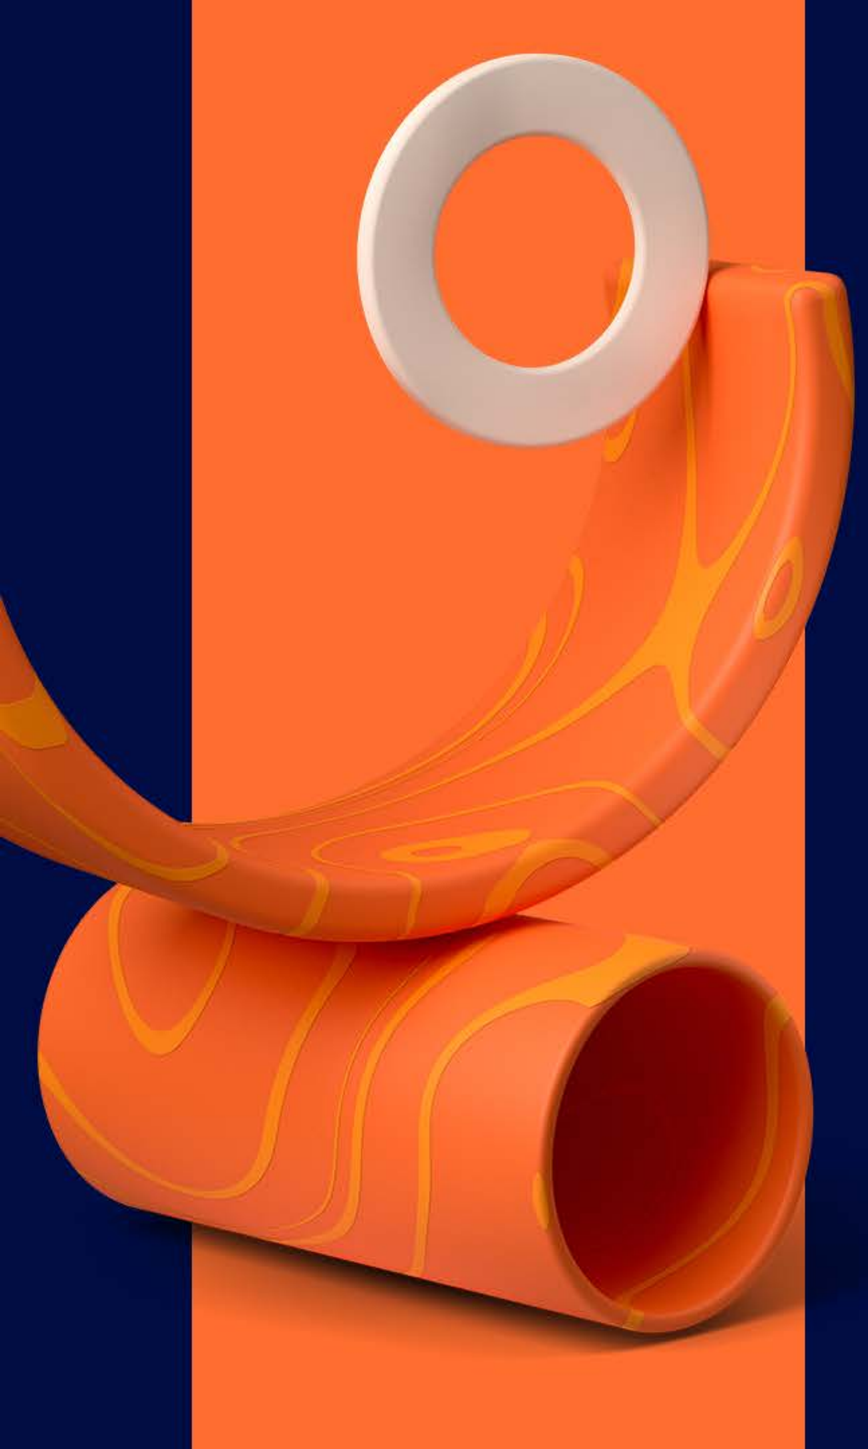
5000 MH/S 0.17 W/MH

- Excellent Cost Performance
- System Security Performance
- Excellent Reliability
- Heat Dissipation Results

Founder & CTO

Meet Henry Marshal, A UK-based entrepreneur and the brilliant mind behind Axmachine. As the Founder and Chief Technology Officer (CTO) of the company, Marshal has played a pivotal role in shaping its vision and driving innovation in the field of cryptocurrency mining.

His 12 years of experience in crypto mining and ability to navigate the complexities of the crypto landscape, anticipate industry trends, and adapt to regulatory changes has been instrumental in ensuring the sustained success of CryptoHash Dynamics.



Introducing Mr. Vinay Kumar Patel, the dynamic entrepreneur and blockchain expert who serves as the Chief Executive Officer (CEO) of Axmachine.

With a rich background in entrepreneurship and a deep understanding of blockchain technology, Patel has played a pivotal role in steering the company to new heights in the fast-paced and ever-evolving world of cryptocurrency.

Additionally, Patel's role as a Crypto and Forex Asset Management expert may extend to providing valuable insights and recommendations to clients or partners who entrust Machine with managing their crypto assets.

What Does Axmachine do?

Axmachine, a pioneering force in the crypto mining industrty, stands at the forefront of technological innovation, providing cutting-edge mining rig services to empower blockchain projects worldwide.

With a relentless commitment to excellence, Axmachine seamlessly integrates state-of-the-art hardware and cloud solutions, ensuring optimal performance and efficiency in cryptocurrency mining.

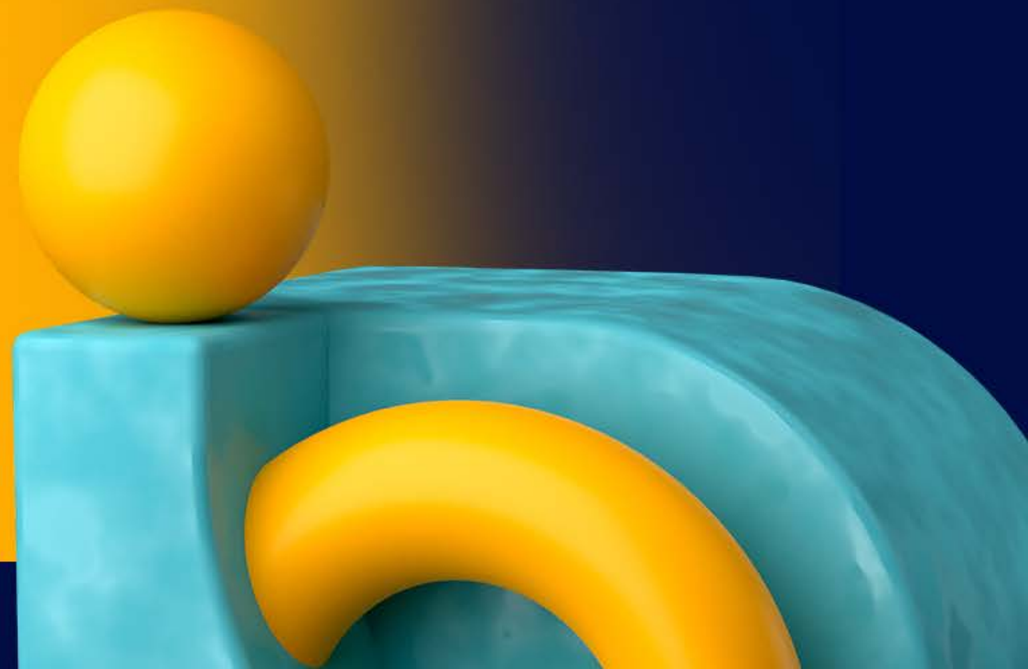
As a trusted partner for blockchain ventures, Axmachine combines expertise and reliability, offering tailored mining solutions that drive success in the dynamic digital landscape.

Fueling the future of decentralized technologies, A machine is the go-to choice for businesses seeking robust, secure, and high-performance crypto-mining solutions to unlock the full potential of their blockchain endeavors.

ASICs GPUs FPGAs

By Applications:

- Remote Hosting
- Services Cloud Mining
- Self-mining



Crypto Mining Industry

As of 2023, the crypto-mining Industry is

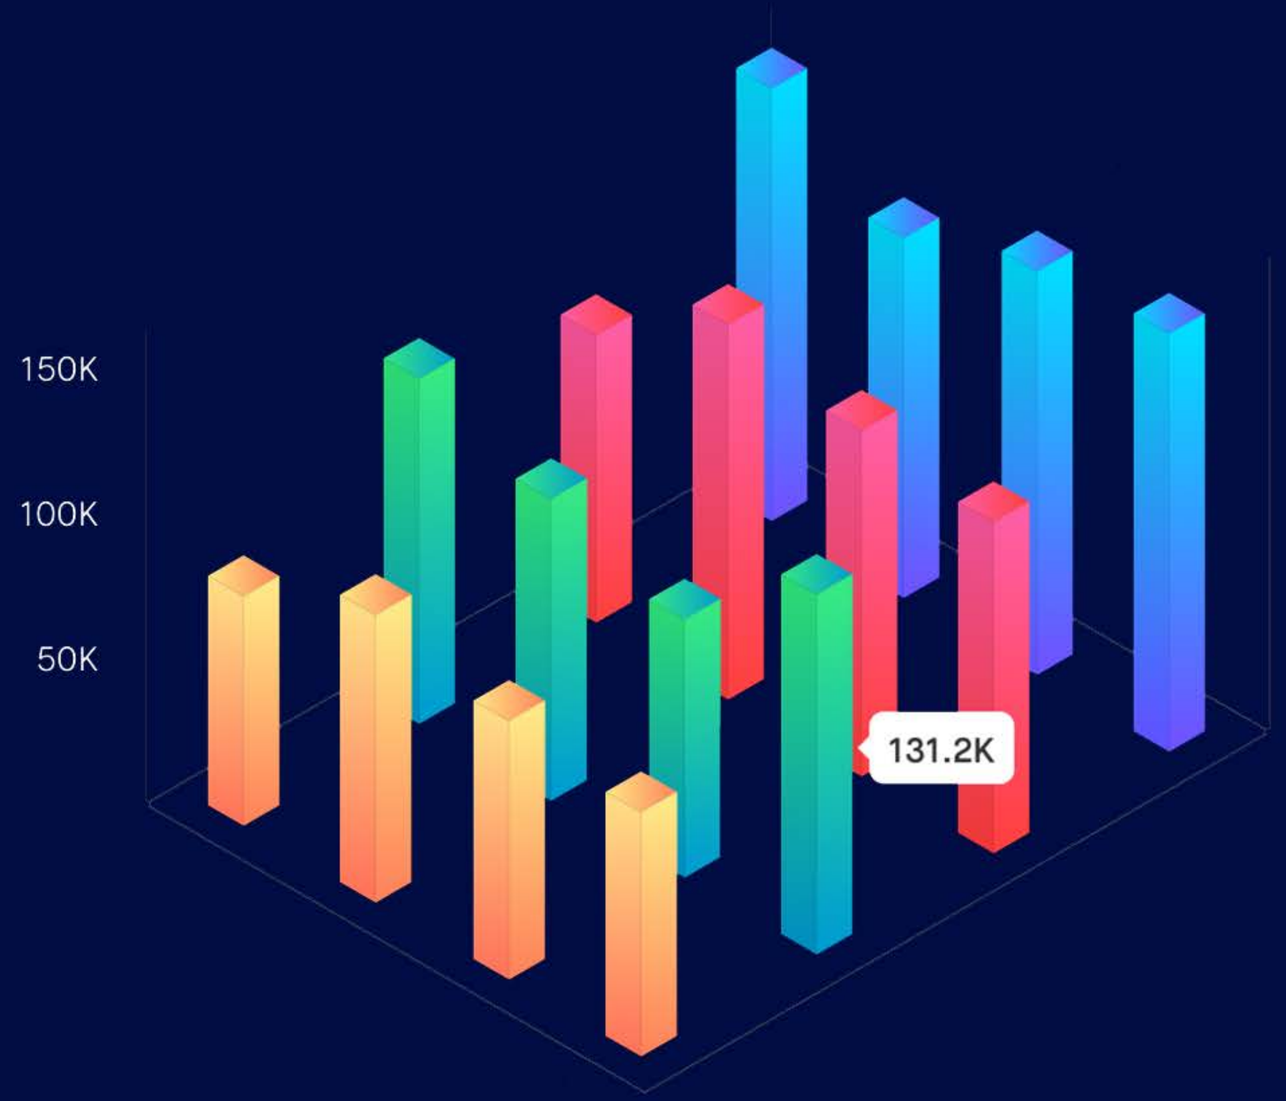
USD 4229.47 Million

Expected to reach

USD 5000 Million

By 2029

At CAGR of 1.9%



How Does Axmachine Make Revenue?

Crypto Mining Service to Blockchain Projects

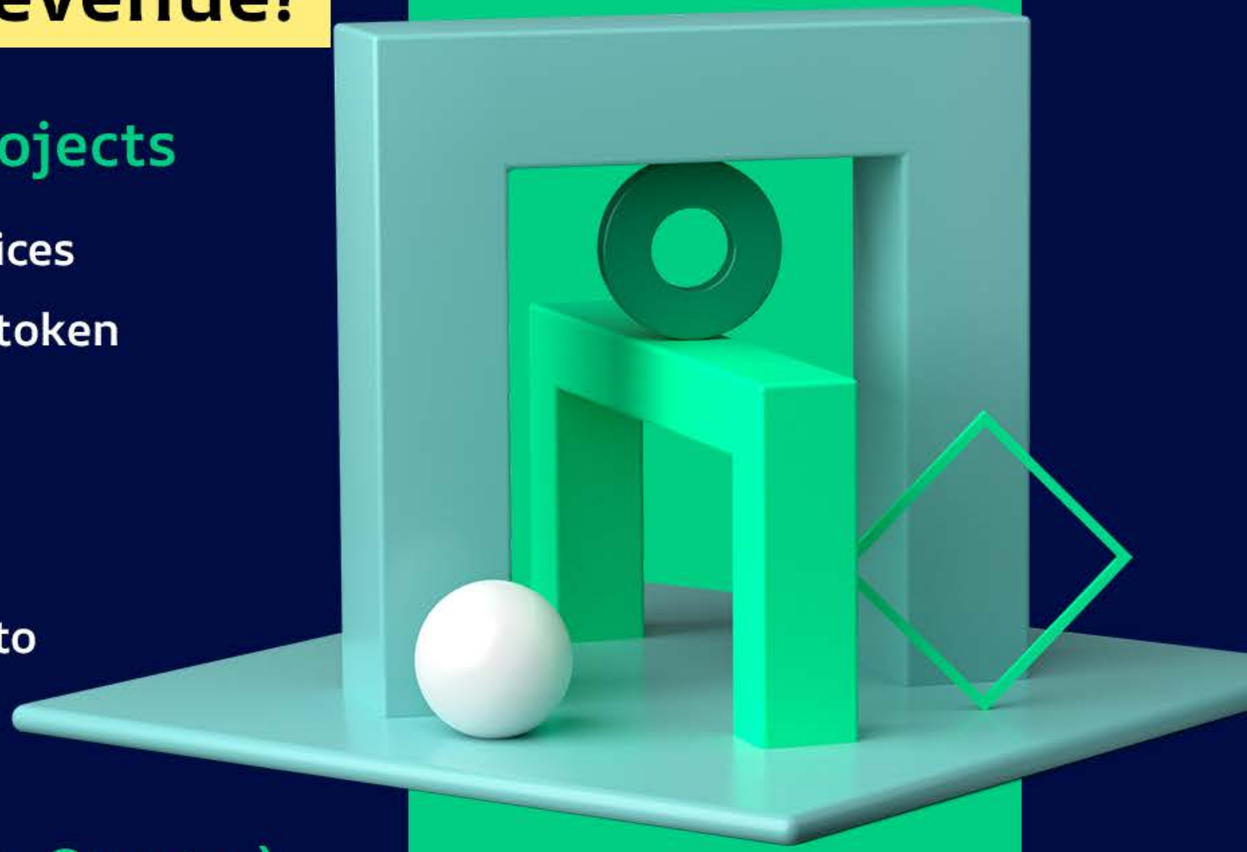
The Blockchain projects pay the fees for mining services and the integrated Ax Hash OS, helps generate AXM token on every mining node.

Blockchain Development Services

We offer high-end blockchain development services to develop data softwares.

Asset Management (Investment, Forex, Crypto)

Our Finance team carefully makes programmed long-term and short-term investments in Forex trading, stocks and crypto.



What’s is Axmint.io?

Axmint

Axmint.io is the brainchild of Axmachine, leveraging its extensive expertise in crypto mining. At the forefront of technological innovation, Axmachine has developed its proprietary crypto-mining software, the "Ax Hash OS."

This sophisticated mining software seamlessly integrates with Axmachine's cutting-edge mining rigs, utilizing AXM tokens as the currency for mining hash energy.

Through Ax Hash OS, users, including small-scale miners, can access cloud mining rig packages. These packages not only provide users with top-notch mining capabilities but also offer a unique incentive system.

Miners receive passive AXM tokens as a return on investment (ROI), creating a dynamic ecosystem where users can actively participate in the crypto-mining process while enjoying the benefits of tokenized rewards.

Remember

The Mining Rigs are running as a cloud server for our client's blockchain mining operations and AXM is generated as the reward for every mining node.
But the Promoter Income is Distributed in $USDT.

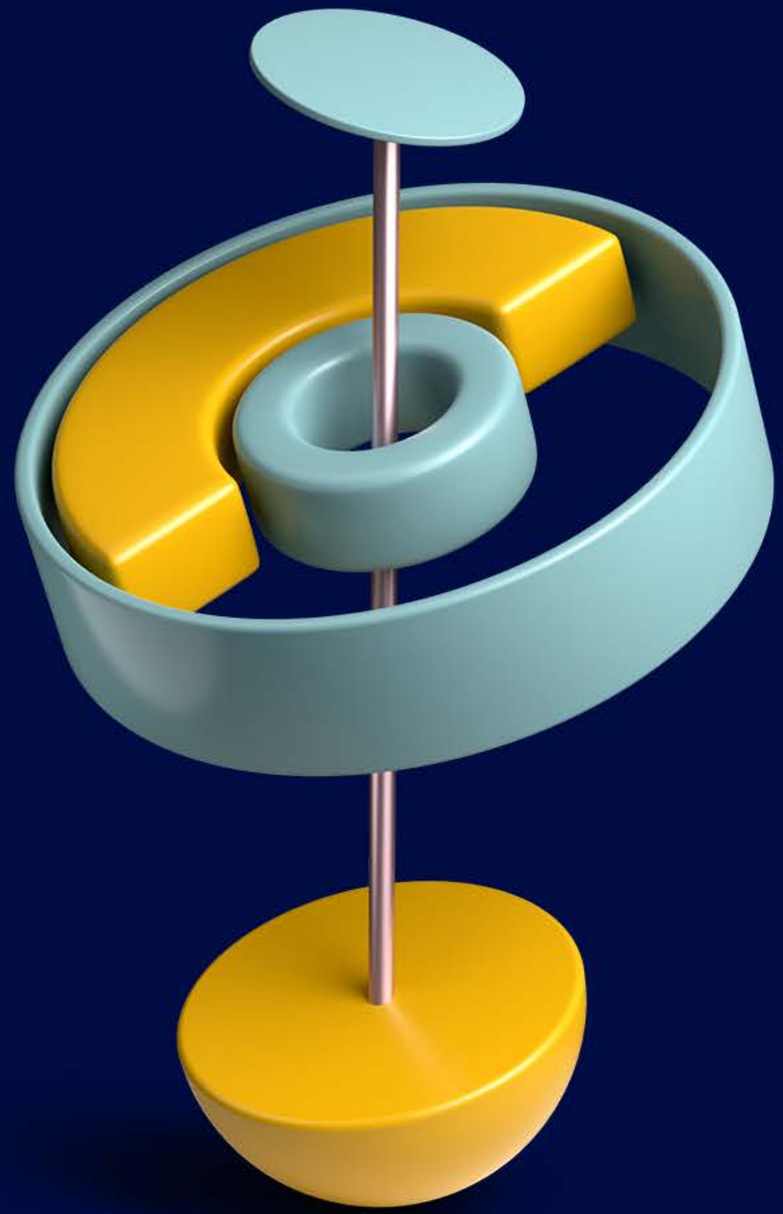
Introducing AXM Token

The Native Currency of the Axmachine
Ecosystem Built on BEP20

Tokenomics & Minting Algorithm

There are a total of 250 Million AXM that will be created

- 25% of AXM are Pre-mined for public use and will be locked on PinkSale by April 2024.
- 5% reserved for Marketing & Development.
- 70 % of AXM will be periodically mined to balance the supply and demand .



Minting Flow

The auto-mining will be processed for 1750+ Days

- 10000 AXM Per Day
- 416 AXM Per Hour
- 6.944 AXM Per minute
- 0.115 AXM Per Second

How do I get promoters' income? USDT?

There 4 ways to earn USDT

- Direct Referral
- Binary Matching
- Binary Royalty
- Leadership Badge

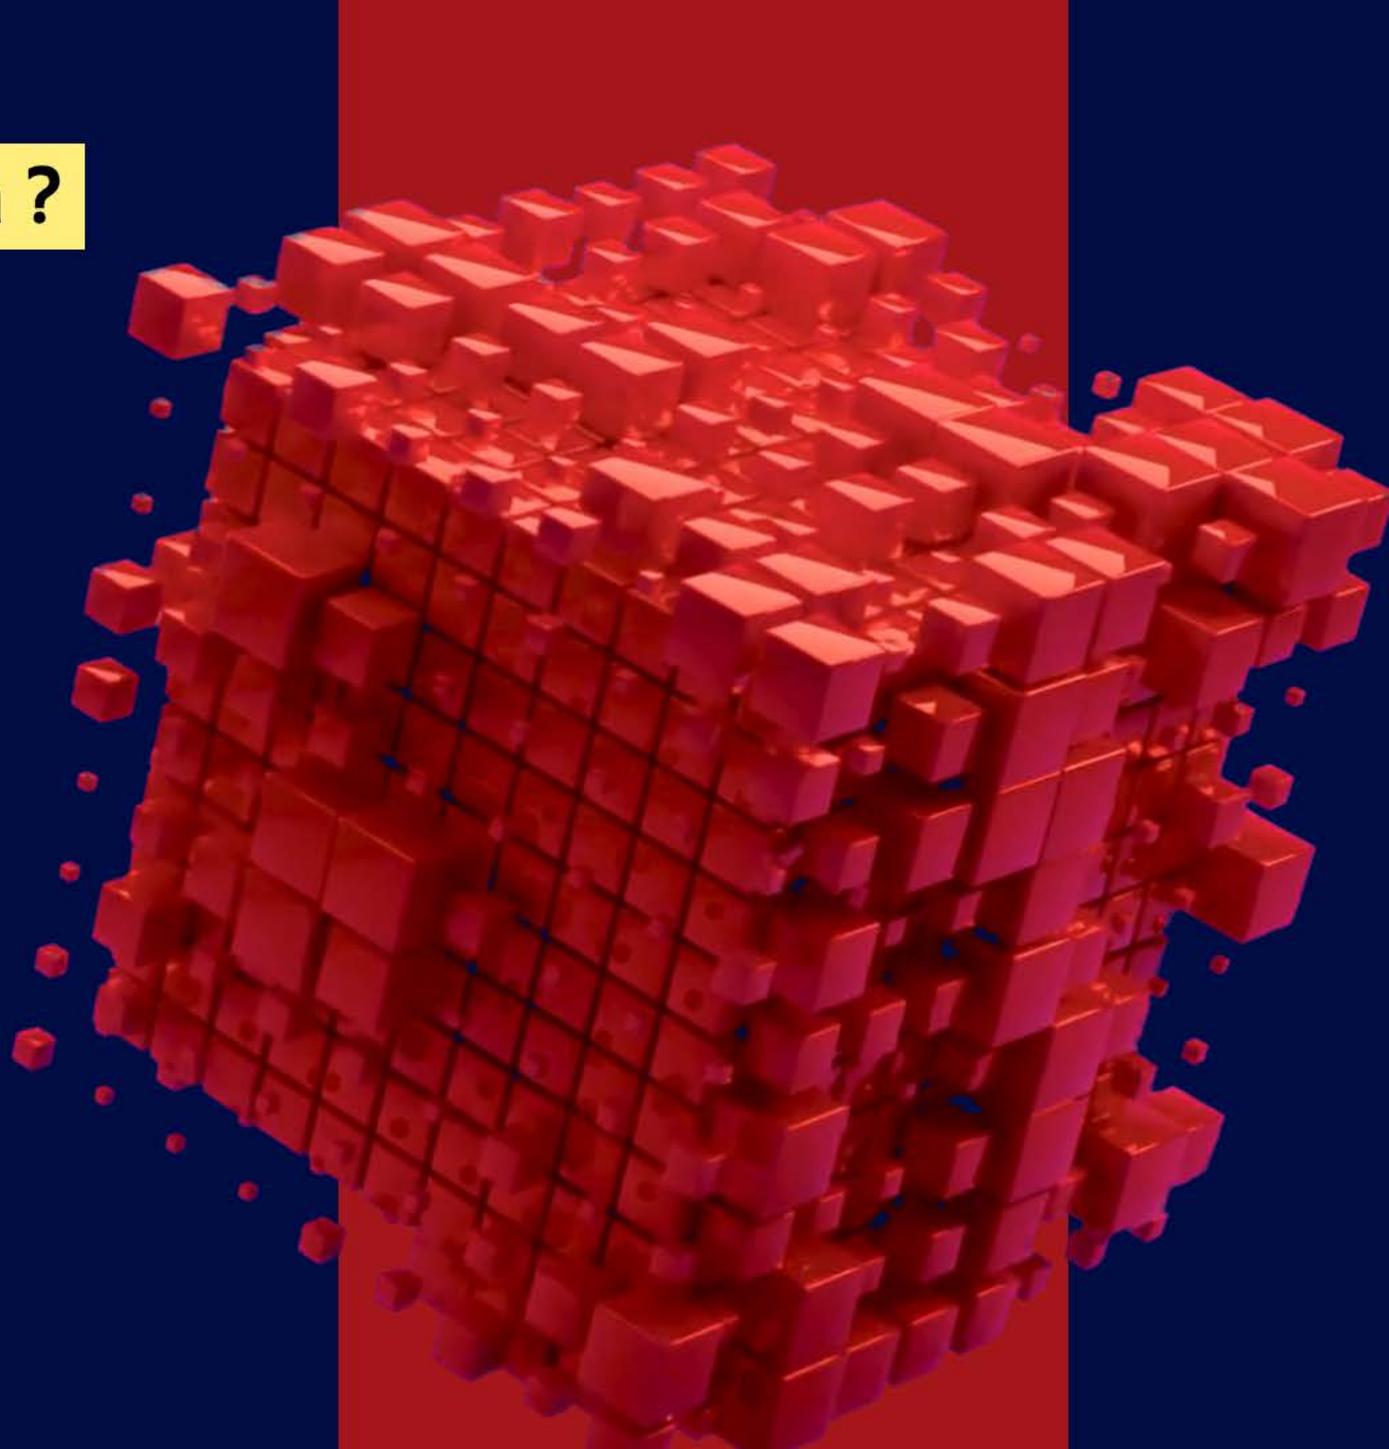
Check our business plan for more details:

Mint AXM Print Dollars

What is Binary Blockchain ?

Binary is a work and incentive distribution mechanism that is commonly used in Network marketing.

Axmint Team has developed a smart contract that executes a Binary mechanism to generate calculative binary earnings on USDT.



AXM Token Use Cases

The AXM token will not just be a tradeable asset but also for spending

Make UPI Payments

Use AXM token balance to make UPI payments for any sort of payment requirements.

Make Utility Payments

Pay your bills, make phone recharge or book your travel using AXM token.

Play Games using AXM

Use AXM token to play web3 games, join contests and claim rewards.

Make Crypto Payments

Go anywhere, make crypto payments directly from the AXM balance.

AxMachine has Bigger Plans with Better Roadmaps

Our live, in progress and upcoming products are

AxHash OS - The Crypto Mining Software (Live)

The crypto mining software program integrated with our cloud mining and hardware rigs.

AXM Pay - UPI Integrated Payments (Indian users only)

A Mobile with AXM token wallet and UPI Payment options.

Ax Play - Web3 Games

Web and Mobile based web3 games, a series of 100+ games using AXM token.

Our live, in progress and upcoming products are

Axchange - Crypto Exchange

Centralized crypto exchange that is secure, beginner friendly, and will generate higher trade volume for 2000+ assets.

AXM Blockchain

Our own blockchain network with smart contract development and AXM coin.

AXM Debit Card
International Debit Card

The International Usage Visa/Mastercard powered debit card to use AXM converted funds.
